

What is Project SHOUT?

Project SHOUT is a National campaign to raise awareness of the dangers of carbon monoxide.

Our vision is for everyone to be talking about carbon monoxide and to be aware of the importance of regular maintenance on all fuel-burning appliances such as gas cookers, grills and boilers, in addition to encouraging people to get their chimneys swept annually and to buy carbon monoxide alarms.

You can support the cause by shouting about our campaign - pledge your support by sharing on your social media feeds and help us save lives today.

Keep yourself and your loved ones safe by supporting our campaign!

Project SHOUT is supported by FireAngel, AngelEye and First Alert safety products – if you do not have a carbon monoxide alarm, please buy one today, see our buying guide for more information.

For more information on the dangers of CO and advice on keeping safe visit the campaign website:
